Electronic exam submission made easy

WRITTEN EXAM: Uploading your written portions

Once you have completed the written short-answer and multiple choice components of your exam by hand, you will need to upload your documents to a computer by either scanning or taking photos of each page. Please make sure the orientation is consistent for each page, that you have captured the entire page, and that the lighting and quality make your exam easy to read. If your pages are too dark or illegible for any reason, you will be asked to resubmit.

Once you have your photo images saved onto an electronic device (a computer, iPad, iPhone, tablet, etc.) you're ready to upload the files and send them to us by following the steps below.

PRACTICAL EXAM: Uploading your PCW1 video

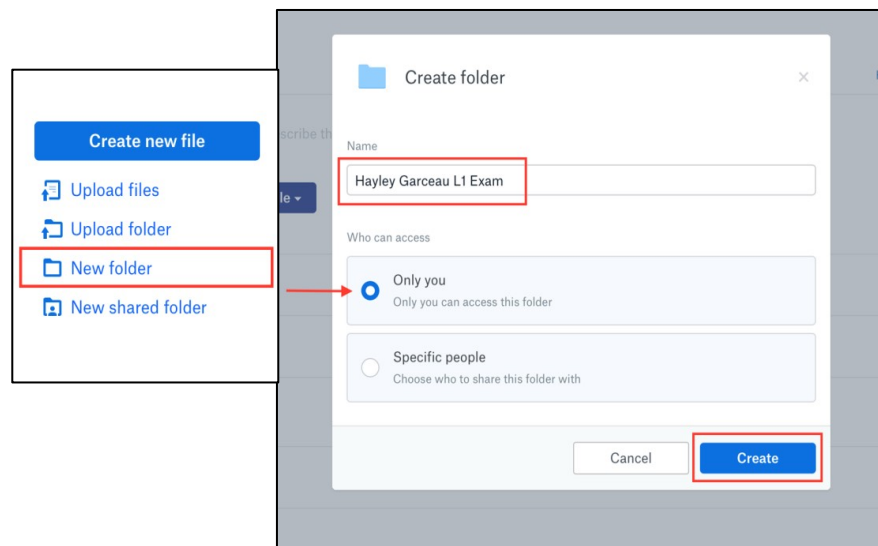

Please refer to the Practical Evaluation Package for reminders and instructions regarding your PCW1 video evaluation, including the recording guideline and checklist to ease the submission process. **The following video formats are accepted:** .avi, .mpg, .mpeg, .mov, .vob, .dv, .wmf, .mod, .m4v, .mp4

HOW TO USE DROPBOX

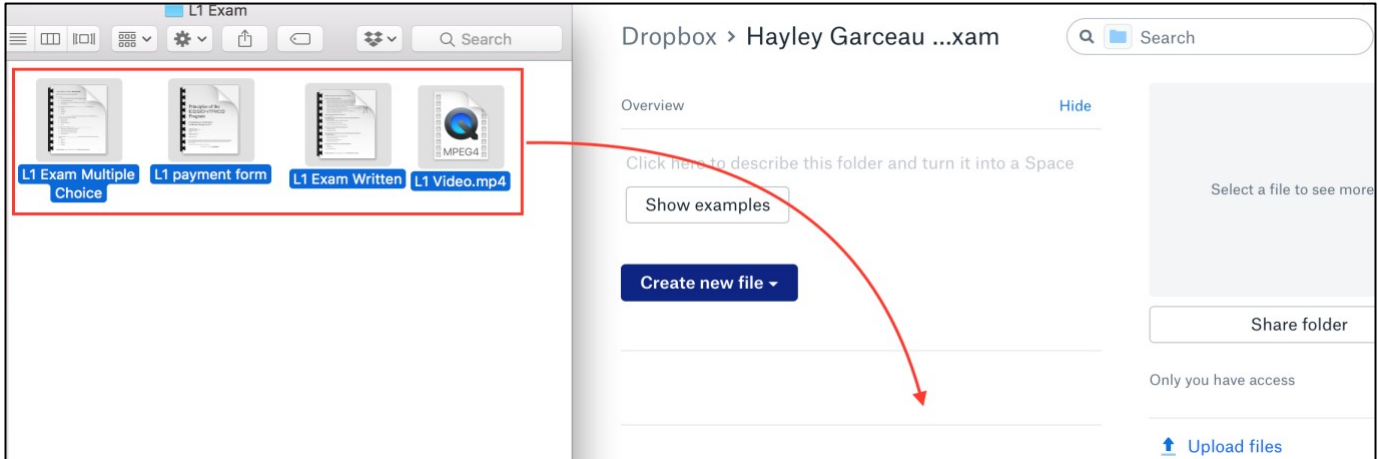

Our preferred online tool that makes electronic sharing easy

3. The next step is uploading your exam files into this folder. Select your exam files and video(s) from your device and drag them into your this new folder. You can select one at a time, or to speed things up, select all your files (*your choice!*). You will see a message appear in green when dragging the documents. “Drop your files to download” really means release your mouse!

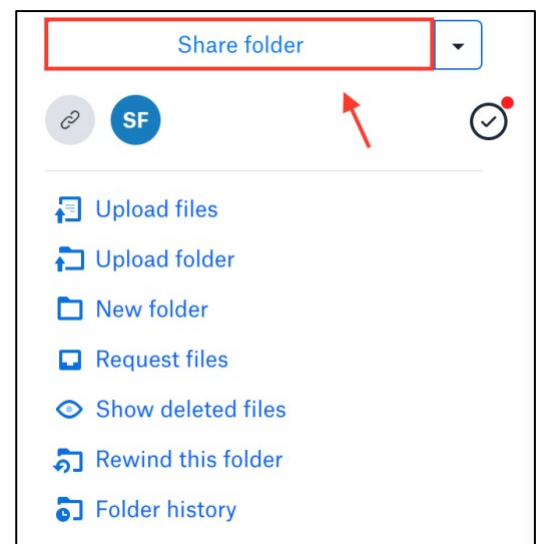

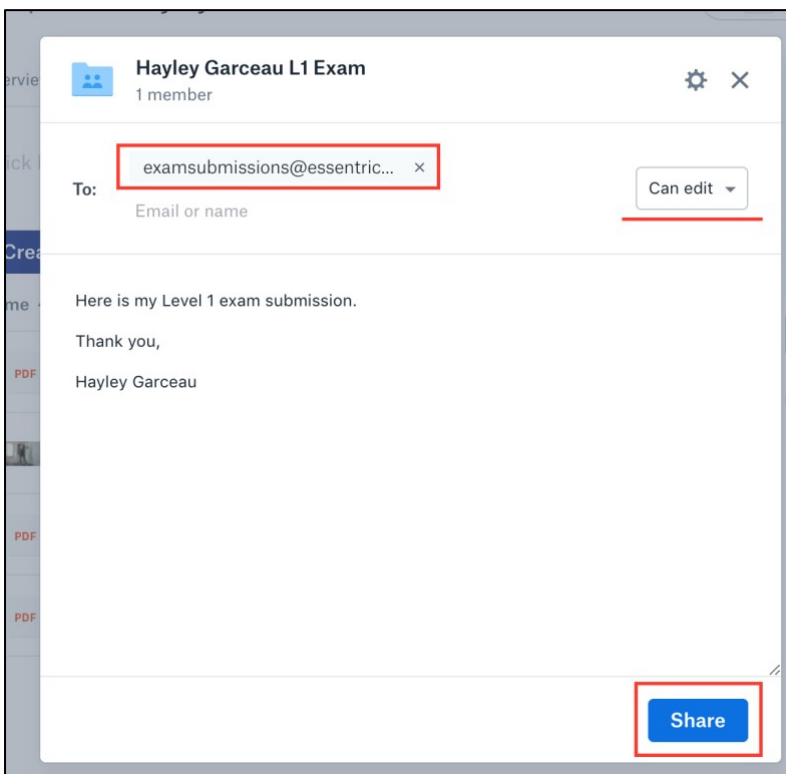

Now your folder should look like this with all your exam pieces:

4. The final step is sending this folder to Essentrics Head Office.
